**Product Name:** Multi Piece Tie Bars

**Manufacturer:** EAL Manufacturing

**Product Description:** EAL Multi-Piece Tie Bars enable splicing of rebar using a threaded rebar (Male) and a rebar with coupler (Female). The "Female" piece is placed into initial pour of concrete. The plastic thread protector is left in place during the pour. After first pour, the plastic protector is removed and the "Male" piece is screwed into the coupling. This is screwed in "Hand Tight".

**Composition and Materials:** Tie Bars are to be Billet Steel Bars per ASTM A615/A615M Gr 60. Tie Bars have no coating and are saw cut prior to threading. Lengths and diameter of bars are made to specifications. The set consists of 1 male, 1 female with coupler.

**This product is manufactured in the United States of America.**

**Standard Sizes (Custom sizes are made to order):**

M1002 - #6 x 50" Multi Piece Tie Bar

M2002 - #5 x 42" Multi Piece Tie Bar

M3002 - #4 x 34" Multi Piece Tie Bar
